## Summary

Full Stack Developer with 2+ years of experience delivering production-grade web applications using Next.js, Go, TypeScript, and PostgreSQL. Skilled in building RESTful APIs, real-time systems (WebSocket), and integrating third-party services including payment gateways and LLM APIs. Experienced in end-to-end development — from database design to containerized deployment with Docker and CI/CD pipelines.

## Skills

**Programming Languages:** Go, TypeScript, PHP

**Frontend:** React.js, Next.js, TailwindCSS

**Backend:** Express.js, Echo, Gin, Laravel

**Database:** PostgreSQL, MySQL, SQLite

**Tools/Others:** Neovim, Tmux, Docker, Linux, Redis

## Professional Experiences

### PT DumbWays Indonesia Teknologi

Full Stack Developer Intern

Feb - Mar 2026

- Built full stack web applications using Next.js, Go, Express.js, and PostgreSQL
- Developed features such as real-time updates (WebSocket), payment gateway integration (Midtrans), and Redis caching
- Implemented LLM-powered career coaching features using Gemini API
- Containerized and deployed applications using Docker and GitHub Actions CI/CD

### Tingkatan Technology

Freelance Web Developer

Jun 2021 - Jun 2023

- Built and maintained full-stack web applications using Laravel and MySQL
- Developed systems including financial management software and academic research platforms used by 200+ active users
- Implemented fuzzy search and payment gateway integrations (Midtrans)
- Deployed services on Linux VPS with Docker and NGINX

## Education

Formal:

- **UIN Sunan Gunung Djati** Bandung, Indonesia  
B.Eng. in Informatics Engineering. GPA: 3.32/4.00 Sept 2017 - Dec 2023

Informal:

- **Bootcamp DumbWays Indonesia** Dec 2025 - Jan 2026  
Full Stack Developer
- **Indosat IDCamp** Dec 2024 - May 2025  
Backend Developer

## Projects

---

### Zp.it — Free URL Shortener

2026

- Fast & simple URL shortener with custom aliases, QR code generator, and click analytics
- Implemented high-performance caching
- Sub second latency ~200ms for redirects
- Stack: Go, HTMX, Redis, SQLite, Docker

Live Demo: <https://zpit.up.railway.app>

### Matte — Matcha & Coffee E-Commerce Platform

2026

- E-commerce platform with real-time product stock updates, order tracking, and admin dashboard
- Implemented cart, checkout flow, and Midtrans payment gateway integration
- Stack: Next.js, Supabase

Live Demo: <https://matte-commerce.vercel.app>

### Coach.ai — AI Career Coaching Platform

2026

- LLM-powered career coaching web application
- Implemented AI resume review, interview simulation, and skill-gap analysis
- Stack: Gemini API, Next.js, Supabase

Live Demo: <https://coach-eight-ashy.vercel.app>

### Taskify — Kanban Task Management App

2026

- Kanban board application with drag-and-drop task management
- Implemented labels, deadlines, filtering, and sorting features
- Stack: Next.js, Express.js, Supabase

Live Demo: <https://taskify-frontend-lilac.vercel.app>

### Circle App — Social Networking Platform

2026

- Social media platform with posts, profile management, follow and like system
- Implemented real-time updates using web socket
- Stack: React.js, Express.js, PostgreSQL, Redis, Socket.io

Live Demo: <https://ui-circle.up.railway.app>
